Installing OPI Training videos onto your iPod Touch (iTouch)

Software to have on your computer before you download videos to your iPod Touch
- Free iTunes from Apple.
- Free Quicktime Software from Apple.
- Internet Explorer (Google Chrome or Apple Safari can also be used)

Viewing and downloading videos
Go to the Instructional Innovations (http://opi.mt.gov/Streamer/Instructional_Innovations/) page on OPI's website
- Using the Search feature on the Instructional Innovations OPI site, select the video you would like to view or download to your computer.
- The video will start to play automatically. To save the video to your computer to install onto your iTouch, right click on the button "Download/View Now" and select "Save Target As…". Save the video where you normally would put your iPod Touch Videos (Usually My Documents> My Videos

Transfer downloaded video from iTunes then to your iTouch.
- Open iTunes.
  - When the video has completely downloaded Click "File" then "Add File to Library…"
  - Browse to where you have saved the video, select the video and click ok.
- Connect your iTouch.
  - Select your iTouch when iTunes recognizes it.
  - Click on the "Movies" Tab.
  - Find the name of the OPI video and fill the checkbox.
  - In the lower right hand corner of iTunes click "Sync". This will load the video to your iTouch.
    - If you want to load multiple videos fill the checkboxes to all the videos you wish to transfer to your iTouch. Then sync.

Videos to be available on iTunes U.
- OPI videos including the ones found on Instructional Innovations will be available on iTunes U soon. When available you will be able to download them to your computer and sync to your iTouch like you would with most purchases from iTunes. To see how you can access and use iTunes U go to http://www.apple.com/itunes/how-to/#video-itunesu.
